

Public Notice

Burketown Airport Reconstruction

Project update

Work to reconstruct the existing runway at Burketown Airport remains on target to start on 9 April 2026.

The airport will be closed from **9 April 2026 to October 2026**, weather permitting.

Rex passenger services from Doomadgee

All Rex passenger services will arrive and depart from Doomadgee Airport on **9 April 2026**.

Recent wet weather from ex-Tropical Cyclone Narelle made Doomadgee inaccessible by road due to water over the Nicholson and Gregory River Crossings and we have been monitoring conditions daily.

Council is investigating alternative transport options to get passengers to and from Doomadgee for their flights if there is no road access.

Passengers who have registered for the bus service will be updated if changes are needed.

Booking your bus service

A reminder to contact Council (07 4745 5100) to book a seat on the bus service between Doomadgee and Burke during the closure period.

We will continue to keep the community updated as further information becomes available.
